

06.02.2022 - 17:55 UTC	Frank	This is a chat for <b>feature requests</b> and <b>bug reports</b> in c99.chat. Please add your comments here. I also use this chat to announce new changes which I add every once in a while. This is a moderated chat, so you will see your entries, but others will see it only after it has been approved... Thanks, Frank
06.02.2022 - 21:58 UTC	Tom	Would be good to have an API to add comments automatically, e.g. from a smart home device...
08.03.2022 - 21:53 UTC	Frank	Done - see the 'Developer'-Section in <a href="https://c99.chat/help.php?lang=en">https://c99.chat/help.php?lang=en</a>
09.05.2022 - 00:19 UTC	Frank	Built a ton of new features: uploading an avatar image, viewing moderated chats as non-admins, swipe actions in overview lists, timezone management and many more.
